

Cale DuBois
Senior Mining Engineer
Quinsam Coal Corporation

Experience

1 year as a senior mining engineer
2 years as a rock mechanics engineer
2 years as engineering assistant
2 years as graduate researcher

Qualifications

B.A.Sc at the University of British Columbia (2001) in Mining Engineering
M.A.Sc at the University of British Columbia (completing)
Empirical Design Methods Underground Metal Mines Short Course (2003)
Applied Numerical Modeling using Map3D (2003)

Interests

Ground Control Optimization
Excavation and Stope Stress Modeling
Slope Stability Analysis
Rock Mass Classification
Underground deformation and stress determining instrumentation
